

City of Salmon Arm – Building Bylaw #3939

- 8.1.4 All building permits shall include an accurate site plan prepared by a British Columbia Land Surveyor, registered professional or as otherwise approved by a Building Official showing:
 - 8.1.4.7 the location, dimension and gradient of parking and driveway access
- 8.2. In addition to the requirements of section 8.1.4, the following may be required by a Building Official to be submitted with a building permit application for the construction of a complex building where in the opinion of the Building Official the complexity of the proposed building or structure or siting circumstances warrant:
 - 8.2.2 a section through the site showing grades, buildings, structures, parking areas and driveways;
- 9.1.4 include an accurate, scaled site plan prepared by a British Columbia Land Surveyor, registered professional or as otherwise approved by a Building Official showing:
 - 9.1.4.8 the location, dimension and gradient of parking and driveways from the road access point;
- 9.2 In addition to the requirements of section 9.1.4 and 9.1.5, the following may be required by a Building Official to be submitted with a building permit application for the construction of a standard building where the project involves two or more buildings, which in the aggregate total more than 1000 m² (10,764 ft²), or two or more buildings that will contain four or more dwelling units, or otherwise where the complexity of the proposed building or structure or siting circumstances warrant:
 - 9.2.2 a section through the site showing grades, buildings, structures, parking areas and driveways;
- 10.1 An application for a permit with respect to the relocation of a building shall:
 - 10.1.6.8 the location, dimension and gradient of parking and driveway access.
- 12.1 An application for a permit with respect to a temporary building or structure shall:
 - 12.1.4.8 the location, dimension and gradient of parking and driveway access.
